Abstract

In the article we consider the main issues related to the problems in the training of pre-service teachers of technology for teaching the basics of entrepreneurship in the modern context. The authors offer the innovative forms of teaching students which best provide the training of students in the field of Entrepreneurship and the Economics Fundamentals. Examples of such forms are the meetings with the business representatives, the entrepreneurs working day shadowing, the communication with them, as well as the preparation, organization and holding of business games with pupils and students. © IDOSI Publications, 2014.
